3 Inch Diameter

6 Feet Tall

N Class Motor

12 Mile Apogee

Mach 3

To The Moon Together is an Amateur Sounding Rocket Carrying 3 Scientific Experiments on a Fully Custom Electronic Payload

Experiment 1:
Measure Cosmic Ray Flux at High Altitude

Experiment 2:
Monitor Gathered Atmospheric Static (electric) Charge

Experiment 3:
Analyze Air Density via Changes in Structural Resonance

And of Course, Get Onboard Footage of the Full Flight
